Data from Census (1)

Crime in Los Angles

Data from: data.gov
LAUSD.net

This slide i was able to produce a map on GIS where we see how the wealth is distributed throughout the county of Los Angeles.

This map shows how crime is spread throughout the city and it is primarily centered in the areas where poverty is at its highest.

Photoshop

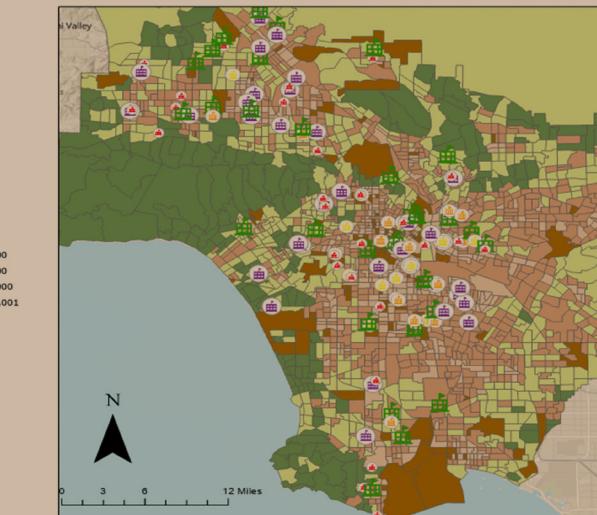

STATUS OF LOS ANGELES SCHOOL DISTRICT

DESCRIPTION

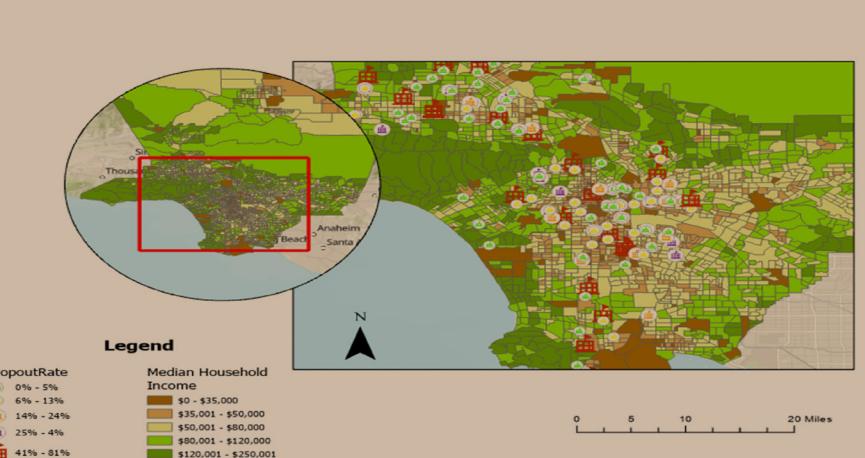

Graduation rates of the school district are at an all time high. Certain areas are still underperforming.

Graduation Rates

Drop Out Rates

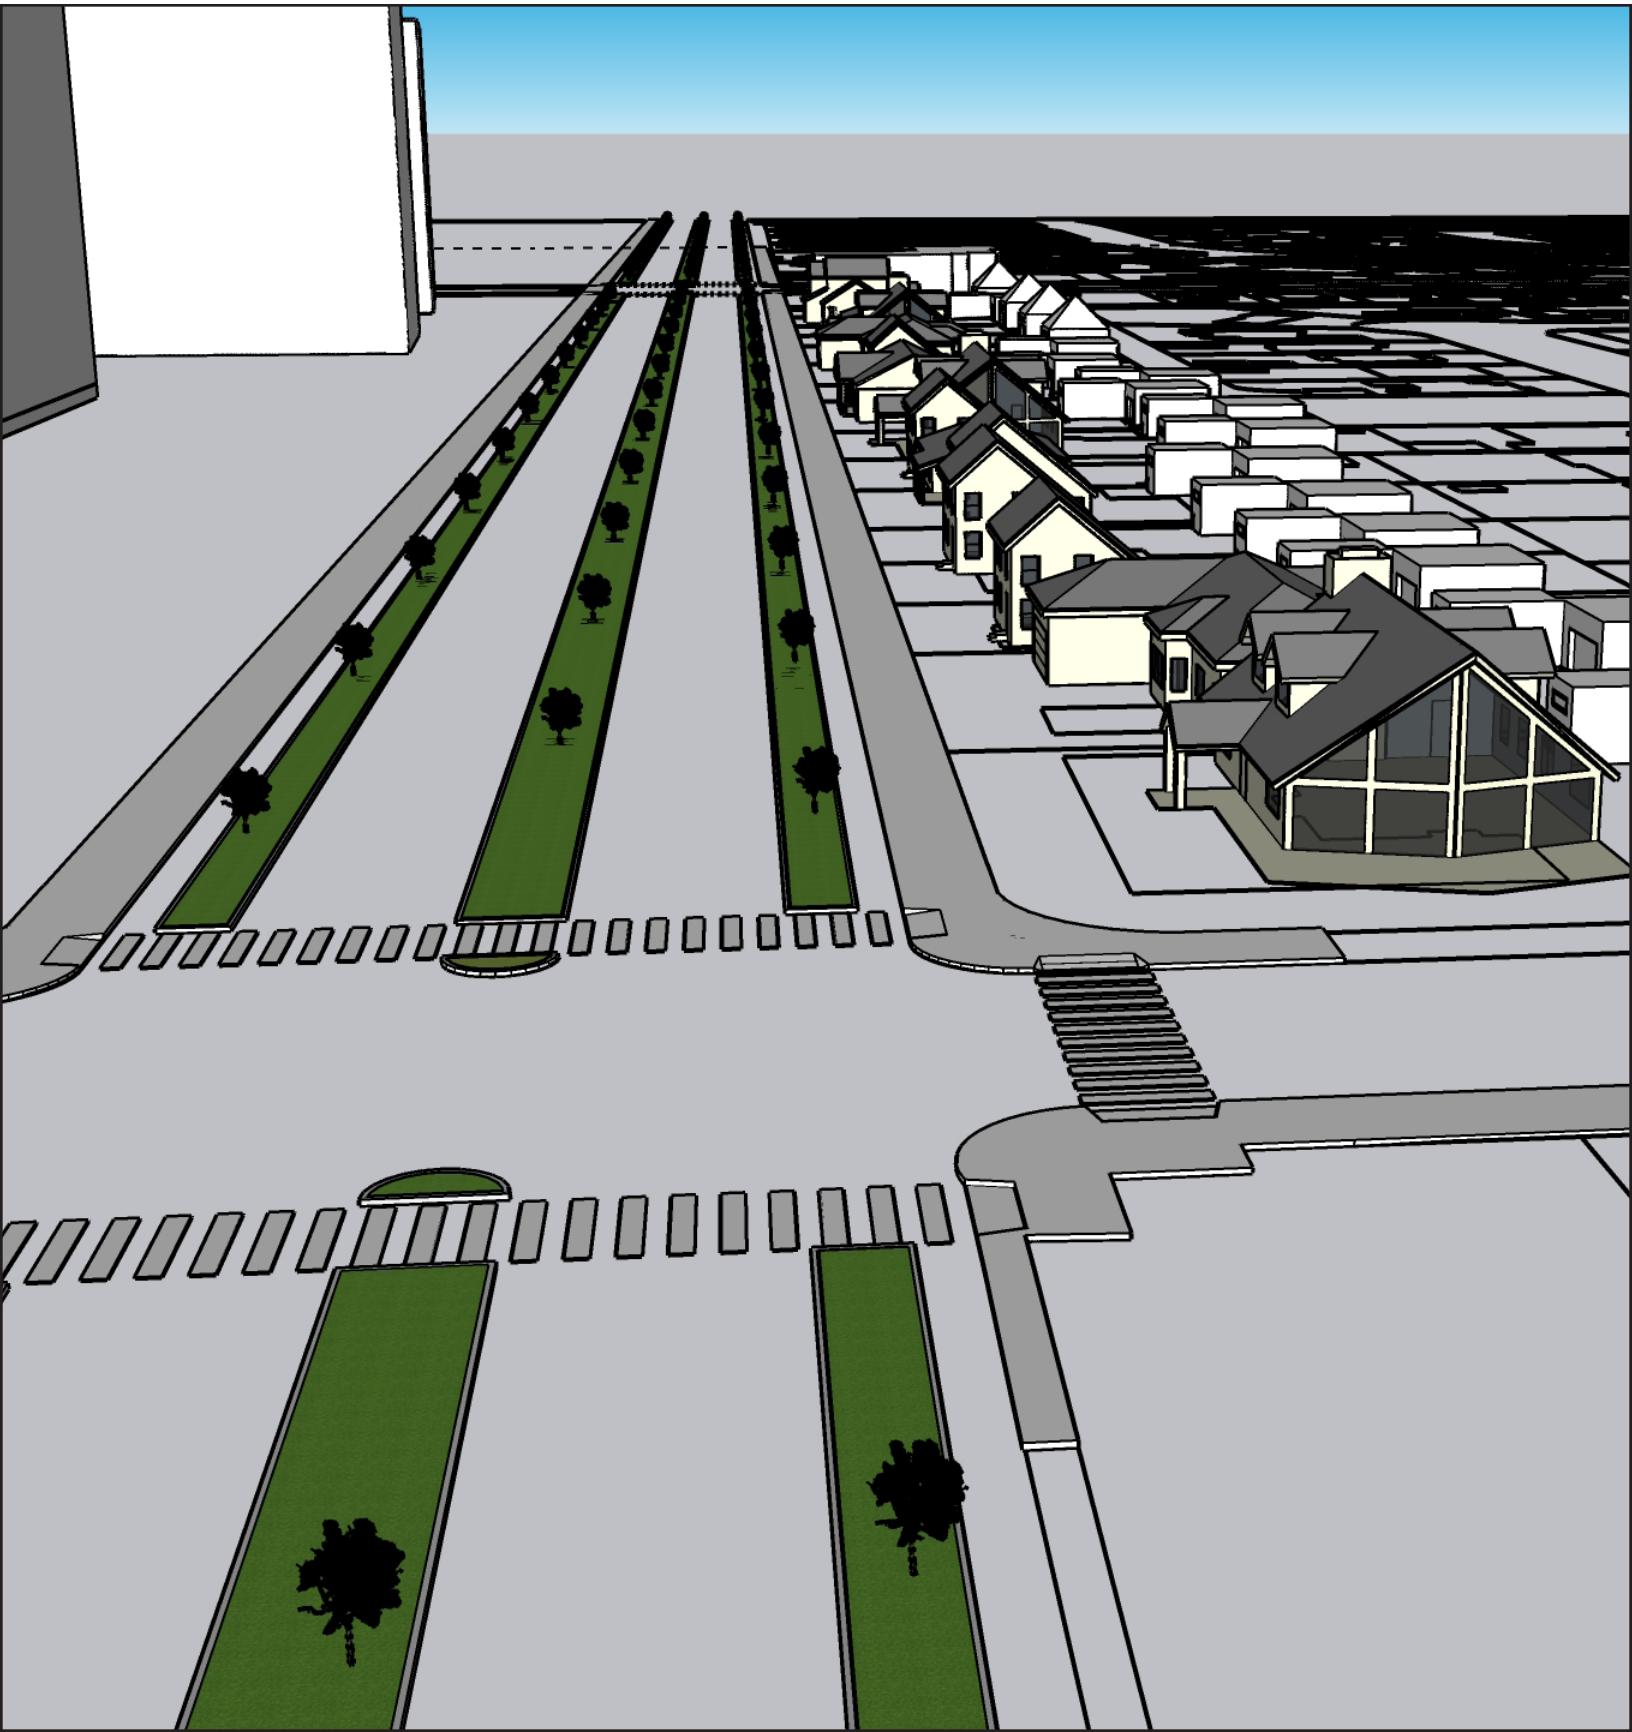

Data from: Census (1)
LACity.org
Lausd.net

CONCLUSION:

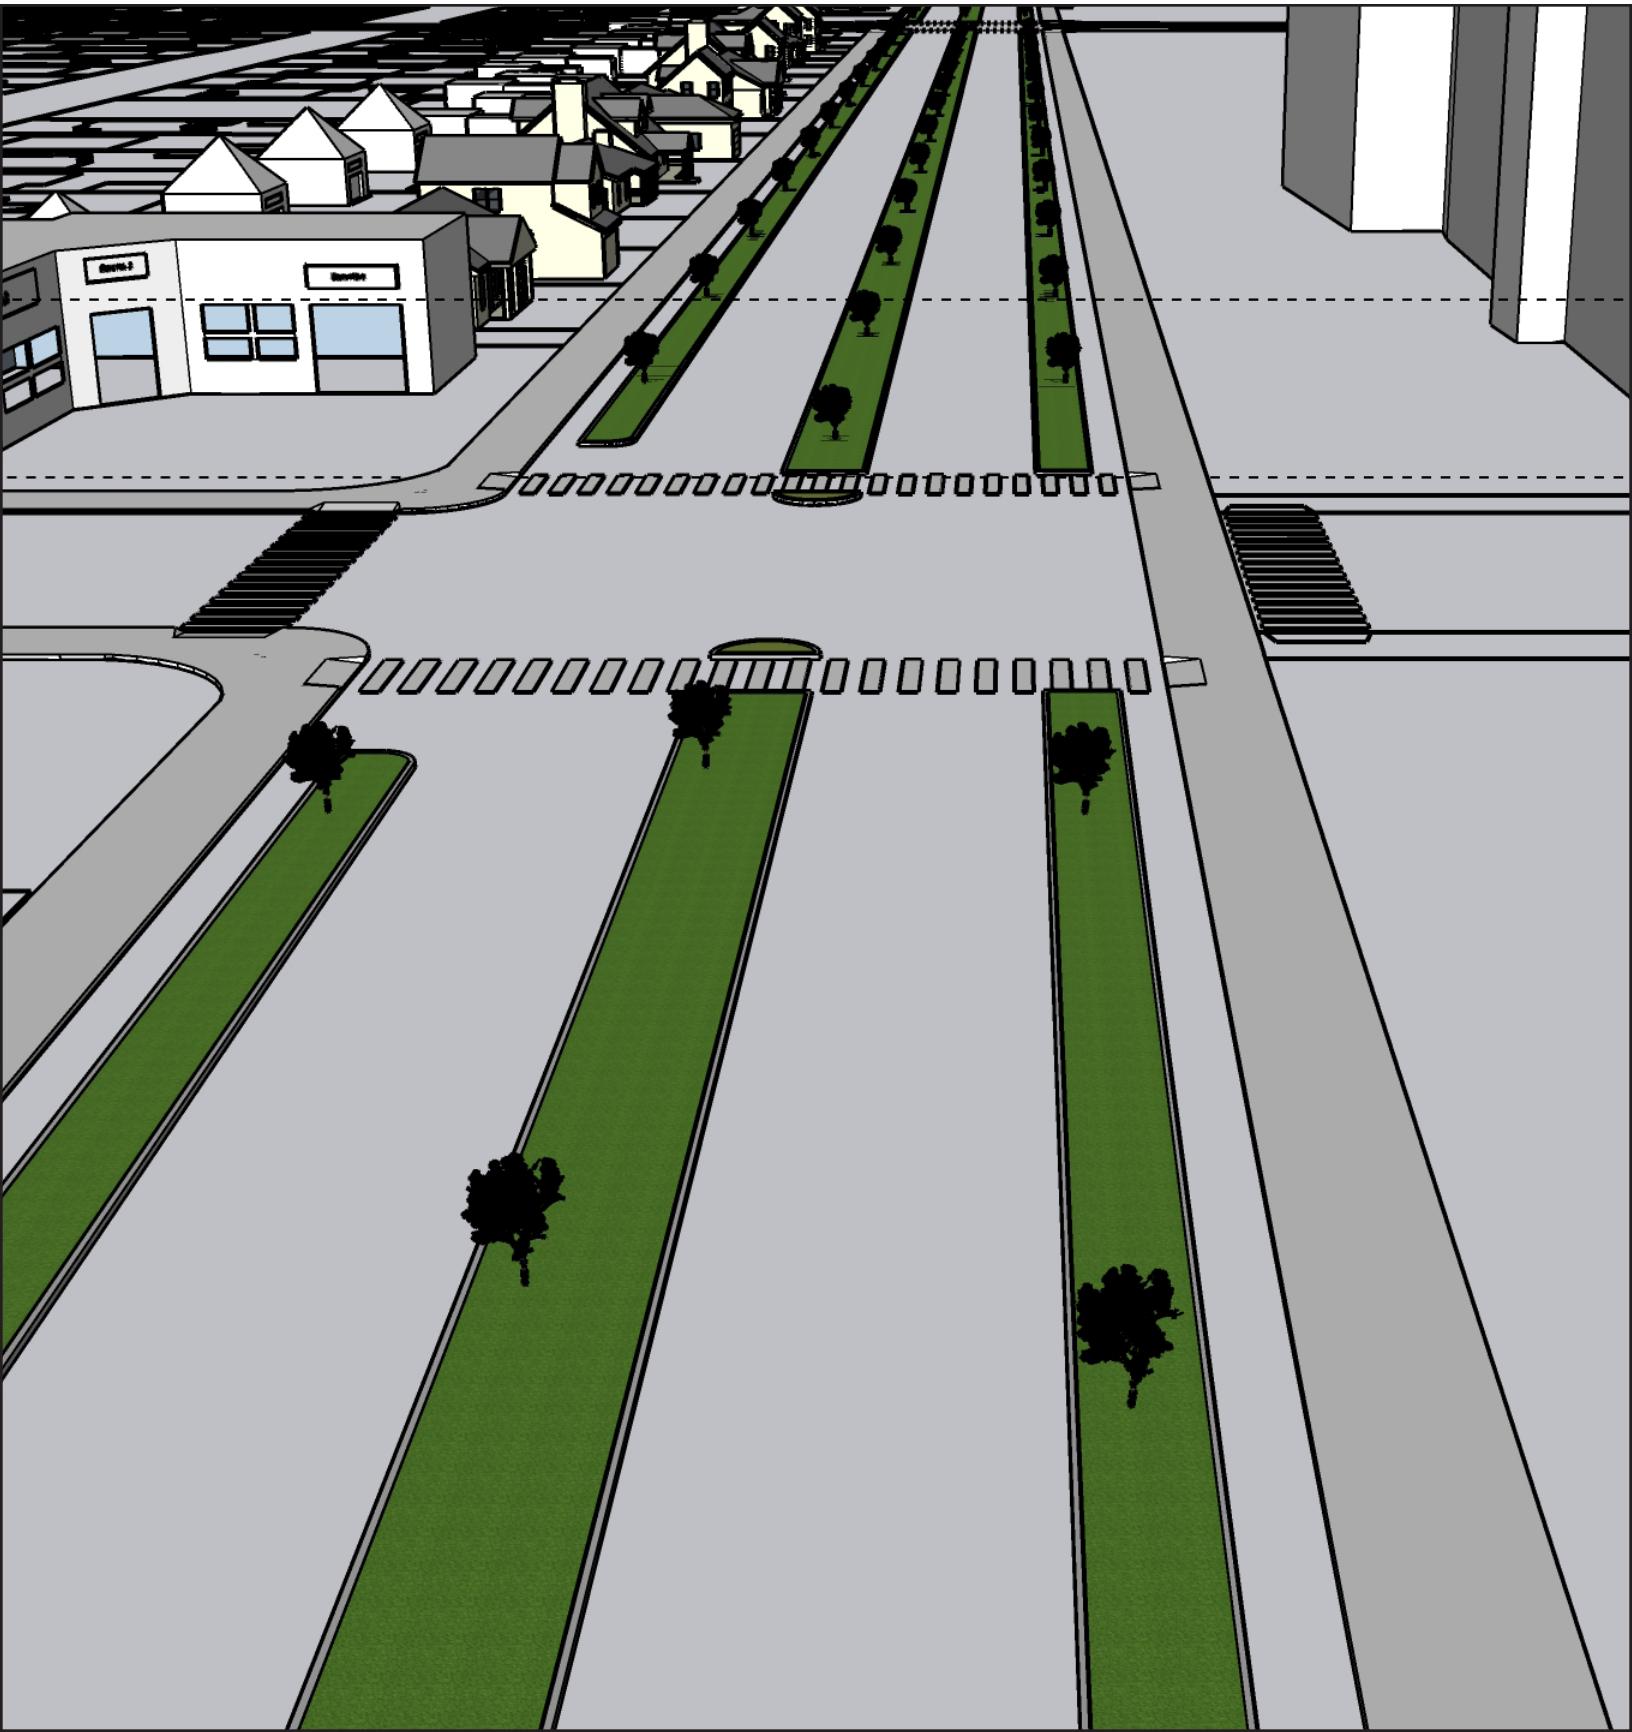

When comparing the schools that are underperforming to schools that are exceeding expectation. You see that the areas they are located have completely opposite
